Experience

- Three week virtual internship through [Bharat Intern in web development.](#)
- Also I have completed my 2 month training in [Data analytics from Internship studio.](#)

PROJECTS

- **My Clinic App** [Open](#)
A MERN fullstack CRUD application I made for the dental clinic I work part-time at. It allows us to store patients' data in an organized database, allows searching patients using various criteria and filters, and exports data to a CSV file.
- **Personal Bookshelf** [Open](#)
Allows users to search books using Open Library API. Also users can save their favorite books in a personal bookshelf.

MINI PROJECTS

- **TrackasyouSpend** [Open](#)
It is a site that allows users to track their money as they spend it. Very helpful in tracking and saving money.
- **SignScraper** [Open](#)
SignScraper is a site that allows users to sign their signature on a canvas. You can download that sign with its background removed, hence the name SignScraper.

Technologies Used in Above Projects

React, Node.js, Express, JavaScript, MongoDB HTML, CSS.

EXTRA CURRICULAR

Participated in multiple inter-collegiate festivals and won various prizes in quizzes, cricket, and treasure hunts.

HOBBIES

I Love cinema, music, Playing cricket And volleyball.

LANGUAGES

English, Hindi
